# **With The American Ambulance Field Service In France Personal Letters Of A Driver At The Front**

**Leslie Buswell**

This 1915 publication collects letters written by a driver for the American ambulance service. The incidents they relate occurred before the entrance of the United States into World War I as a combatant. "These letters, according to ordinary ethics in such matters, should not, perhaps, be published. They were merely intended as tributes of friendship and remembrance. Casually written — in pencil often — at moments between duties, with no thought of their being destined to any further purpose than that distance and absence might count a little less through the pictures they would give of a day's work far away."
